Use the value of your belongings to your advantage

Secured Transaction Order (STO) is a legislation which allows individuals or businesses to leverage their movable assets with financial institutions to gain credit for personal or business growth.

With Secured Transaction Order and the Collateral Registry System, you can finally use the value of your belongings to your advantage, helping you develop your business to achieve its full potential.

**Process**

1. Go to the bank for a loan
2. Provide information and documentation on the collateral
3. The bank will conduct an internal assessment on the collateral
4. Once approved, the bank will register the financing statement on the CRS and issue loans to the client.

**Types of collaterals**

- Transportation
- Electronics
- Jewellery
- Intellectual Property
- Legal & Investment Documents
- Crops

**Registration Requirement**
The simple and user-friendly registration is available through the website. The details that are captured for registration are on debtors, secured party and Collateral.
